

Coronavirus Vaccinations

Updated: 25 July 2022

Regarding issuing vaccination tickets for a 4th coronavirus vaccination (booster shot) for medical staff and persons at facilities for the elderly and similar

Please refer to the following link for details:

[Issuing 4th vaccination ticket for the new coronavirus vaccine for medical staff and facilities for the elderly.](#)

Important Notifications

- ★ The active period for receiving coronavirus vaccinations as determined by the national government is currently until 30th September in 2022. Regarding vaccinations after October 2022, the national government has not announced a policy for implementation at the time of writing. If you wish to receive vaccinations, please make a reservation soon.
- ★ Children (5 to 11 years old) The reservation period for September at Miki Hospital (Oshu city) was released at noon on Wednesday, 20th July, 2022. In addition, the reservation period information for children for August 2022 is also now open to the public. Depending on the reservation acquisition status, the reservation frame for September may be limited, so if you wish to receive vaccination, please make a reservation as soon as possible.
- ★ For persons over 60 years of age who have received a 3rd vaccination ticket, Oshu city has allocated vaccination dates, so please check the postal notification as soon as possible.
- ★ Regarding the interval before receiving a third vaccination (booster) shot, please note that since June, in principle, the period (after receiving the second vaccination) has been changed from 6 months to 5 months.

About consolidation of vaccination venues up to the third shot after July

In order to respond fully to the matter of providing 4th (booster shot) vaccinations, after July 2022, Oshu city will consolidate vaccination venues for 1st and 2nd shot vaccinations and the vaccination boosters (3rd shot).

- About the 1st and 2nd shot vaccination venues
 - Magokoro Hospital (Pfizer)
 - Maesawa Clinic (Moderna 18 years of age and over)
- About the third shot venue
 - Prefectural Esashi Hospital (Moderna 18 years of age and over)
 - Magokoro Hospital (Pfizer)
 - Maesawa Clinic (Moderna 18 years of age and over)
- About the venue for children (5 to 11 years age group)
 - General Mizusawa Hospital Pediatrics (Weekdays, Pediatric Pfizer)
 - Miki Hospital (Saturday, Pediatric Pfizer)
 - Izutsu Clinic (Saturday, Pediatric Pfizer)

* Depending on the progress of providing vaccinations, persons wishing to be vaccinated may be requested to cooperate with other medical institutions providing vaccinations.
