

## 10 Vaccinations Other than from your Residence

Updated: 16th June, 2022

In principle, coronavirus vaccinations will be provided in the same municipality (town/city) where a person's Residence Certificate is issued.

However, for persons staying for a long period of time at a place other than that listed on their Residence Certificate for unavoidable reasons (such as work related transfers, students boarding in a remote location, pregnant women returning home to give birth or similar reasons), it is possible to receive a vaccination after notifying the municipality that the medical institution providing vaccinations is located within. Persons who applied this way for their first or second vaccination also need to apply again to receive a booster (third or fourth) vaccination.

In addition, if any of the following unavoidable reasons are applicable, it will not be necessary to notify the municipality (town/city hall):

- 1 Persons hospitalized or institutionalized
- 2 If a person with an underlying condition is vaccinated by their attending physician
- 3 If a person requires vaccination at an established medical facility (such as when there is a high risk of side effects from the vaccination)
- 4 If a person receives a vaccination at home during a house call from a representative of a medical institution that is from another municipality (town/city)
- 5 Persons who have become victims of a disaster
- 6 Detainees or persons being detained, and prisoners
- 7 Persons who are vaccinated at "large-scale vaccination venues" operated by the national or prefectural government
- 8 Persons who are vaccinated at their workplace (limited to workplace vaccinations organised by the prefecture)

### ● Notifications

By postal mail

Complete the necessary items on the "Notification for Vaccination of Persons

Outside of their Residence” application form. Persons applying should enclose a copy of their currently held Vaccination Tickets together with a copy of their vaccination history, and mail these items by post to the following address. It will take about 10 days from the time of the application to issue the Notification Certificate.

○ Format

[Application for Vaccination against the New Coronavirus for Persons](#)

[Outside of Their Residence \[PDF file / January 04 MB\]](#)

○ Address for Notification for Vaccination against Coronavirus for Persons Outside of Their Residence
